

Dream Tree Bath Balls

The large bath balls are a great addition to a relaxing bath. The natural ceramics help remove chlorine and toxins found in tap water. They will soften your water for a more calming and soothing bath time.

Main Properties of Three Bath Ball Ceramics Include:

Germanium may:

- Drain toxins and waste out of the body
- Increase oxygen
- Accelerate metabolism
- Strengthen the immune system
- Beautify the skin
- Keep hair silky
- Perform antibacterial functions

Tourmaline may:

- Reach the human body directly, just as light does, by radiation
- Have the ability to deeply penetrate and generate internal warmth suitable for molecule activation in living tissue
- Reduce cluster size
- Assist alkalization
- Minimize water odor

Zeolite may:

- Help perform ion exchange, filtering, odor removal, chemical sieving, toxin removal, radiation reduction, and gas absorption
- Soften water
- Allow hard water to go through its structure and exchange the calcium ions for sodium ions

The Dream Tree Bath Balls include more ceramics than the three listed!

This new product will last about 6 months and all it takes is 3 minutes in the tub. No activation is required. Just rinse with tap water after each use and set in a dry area.
