

# DT Smart Laundry PLUS

## Water Treatment for Laundry & More

Questionable and unhealthy chemicals are in so many products that we are exposed to every day that it can be hard to find ways to cut them out of daily life. Your skin is the largest organ in your body and it can absorb chemicals that come into contact with it—just think about how much contact you have with everything in your laundry and the water you bathe in. If you are looking for ways to live a more wholesome life or just want to save money, then the DT Smart Laundry Plus is the ideal solution for you! With one product, you can eliminate irritating and harmful chemicals in your clothes, save energy by using your water heater less, quit buying laundry detergents, and treat your water for multiple purposes around the home. It's a simple, safe, and no hassle way to keep your family in good health and save some money while you're at it!

## Main Features Of DT Smart Laundry PLUS

- No more detergent • Easy to install
- No need for hot water • Saves electricity
- Up to 95% chlorine free water • Cleans organically
- No more chemicals on clothes • No need for salt
- Easy to connect with garden hoses for outdoor use
- Green technology—safe for your whole family and the Earth.
- Only \$59 in annual maintenance (Compare to the cost of purchasing detergent and heating water for a whole year.)
